

Creatinine Test Market is estimated to be US\$ 3892.86 million by 2030 with a CAGR of 16.4% during the forecast period

Creatinine Test Market accounted for US\$ 845.1 million in 2020 and is estimated to be US\$ 3892.86 million by 2030 and is anticipated to register a CAGR of 16.4%. The amount of creatinine in the blood is determined via a creatinine blood test. This test determines how well your kidneys are functioning. Urine testing can also be used to measure creatinine. Creatinine Test Market learns about Creatinine Test, This creatinine test is used to track and determine the progression of acute renal damage and chronic kidney disease (CKD). First urine test, creatinine clearance test, and serum test are the three different kinds of creatinine tests.

The report Global Creatinine Test Market By Test Type (Blood test and Urine test) By Instruments (Clinical Analyzer, Creatinine Test Strips and Cartridge) By Indication (Kidney Disease, Kidney Failure and Urinary Tract Obstruction) , By End User(Hospitals and Clinics ,Diagnostic Center ,and Research Institutes) and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Market Trends, Analysis, and Forecast till 2029”

Key Highlights:

- In March 2022, The CE-marked Nova Max Pro creatinine/eGFR metre system was introduced by Nova Biomedical in the EU market. Through early kidney disease diagnosis and renal function testing outside of the hospital, Nova Max Pro is intended to enhance kidney care. From a 1.2 mL capillary fingerstick blood sample, the metre and creatinine biosensor assess blood creatinine and estimate glomerular filtration rate in 30 seconds. The Nova StatSensor Creatinine technology serves as the foundation for the measurement system.

Analyst View:

The market for creatinine tests is anticipated to expand as a result of the growing applications for these tests. For instance, increased creatinine levels have been connected to prostate cancer in male adults, whereas they have been linked to bacteremia in babies. Due to diabetes and high blood pressure, the blood's level of creatinine has also increased. As a result, the market for creatinine tests is expanding due to the rising prevalence of diabetes. Additionally, several medications, like cimetidine (Bactrim), might unnaturally raise creatinine levels.

Key Market Insights from the report:

Global Creatinine Test Market accounted for US\$ 845.1 million in 2020 and is estimated to be US\$ 3892.86 million by 2030 and is anticipated to register a CAGR of 16.4%. The Global Creatinine Test Market is segmented based on test type, instrument, end-user and region.

- Based on test type Creatinine Test Market is Segmented into Blood test and Urine test
- Based on instrument ,Creatinine Test Market is bifurcated into Clinical Analyzer, Creatinine Test Strips and Cartridge
- Based on End-User is target market is segmented into Hospitals and Clinics ,Diagnostic Center and Research Institutes
- By Region, Global Creatinine Test Market is segmented into North America, Europe, Asia Pacific, Latin America, and Middle East & Africa.

Competitive Landscape & their strategies of Global Creatinine Test Market

The prominent key players operating the creatinine test market, include Beckman Coulter, Quest Diagnostics, Bayer, Merck, Abbott, Sonic Healthcare, Laboratory Corporation of America Holdings, Genoptix, Health scope, Charles River, OPKO Health, Inc., and Labco.

The market provides detailed information regarding the industrial base, productivity, strengths, manufacturers, and recent trends which will help companies enlarge the businesses and promote financial growth. Furthermore, the report exhibits dynamic factors including segments, sub-segments, regional marketplaces, competition, dominant key players, and market forecasts. In addition, the market includes recent collaborations, mergers, acquisitions, and partnerships along with regulatory frameworks across different regions impacting the market trajectory. Recent technological advances and innovations influencing the global market are included in the report.
