

# **Mobile TV Market is estimated to be US\$ 23.31 billion by 2030 with a CAGR of 7.50% during the forecast period**

**Mobile TV Market** accounted for US\$ 10.92 billion in 2020 and is estimated to be US\$ 23.31 billion by 2030 and is anticipated to register a CAGR of 7.50%. A mobile TV is one that can be viewed on a mobile device such as a tablet or smartphone. Pay TV and free-to-air TV are both available on mobile TV. Pay TV is delivered by a cell phone network operator, whilst free-to-air TV is given by international television broadcasters. Live shows can be downloaded and podcasted via the Internet and viewed on a mobile TV at one's leisure.

**The report "Global Mobile TV Market, By Type (Cable, Fiber-Optic, Live Streaming, and Satellite), By Application (Commercial and Personal), and By Region (North America, Europe, Asia Pacific, Latin America, and Middle East & Africa) - Trends, Analysis and Forecast till 2030"**

## **Key Highlights:**

- In 2021, Al Jazeera, a Doha-based news organisation, has announced the release of a new iOS and Android app. The app relies on Al Jazeera's new unified Material Management System (uCMS) architecture using GraphQL to simultaneously converge its newsrooms' content in a single application, leveraging the Unified Mobile Platform (uMP) for the Network's website content.

## **Analyst View:**

Hundreds of warehouses with cold chain systems are designed to ensure that temperature-sensitive products are stored and transported in the best possible circumstances. The key linkages that the cold chain solutions system provides are critical to a variety of export sectors. Because end-to-end cold chain security is the weak link in the system, businesses invest millions of dollars in their cold chain operations to build effective, efficient, and dependable processes. A single failure in the logistics network can result in catastrophic product and capital losses. Furthermore, internet grocers are increasing their demand for cold storage.
